Local 13 Boilermakers

RRI Energy, Titus Station, Birdsboro, PA
Re: Reheat Pendant Replacement

Attention: Alex Tallick

Dear Mr. Tallick,

Hello, my name is Alex Gallant I am Acuren Inspections Project Manager for the fall 2010 Outage at RRI Energy Titus Station Reading Pa. I just wanted to let you know that the quality and professionalism of all your boilermakers working on the RH pendant replacements was outstanding. Out of 106 welds that were made on the RH pendant replacement they had zero rejections and personally looking at each weld they were some of the cleanest welds that I have seen this fall outage run. It was a great pleasure working with the local 13 boilermakers and there QAQC Bob Goheen.

Alex Gallant
Operations Manager
Maine Division

Yours truly,
Acuren Materials and Testing
