Richard D. Crouse
Boilermakers Business Agent Local 13
1035 Cherimoya Street
York, PA 17404

Dear Mr. Crouse,

On behalf of the Susquehanna Steam Electric Station I would like to thank you, all the Boilermakers, and their supporting staff for your work on the Moisture Separators during the 12th Refueling and Inspection Outage. The upgrade of this equipment was a significant challenge. As you know, the conditions were hot, tight and difficult. There were a number of setbacks and issues. The project did fall substantially behind. However, those obstacles were overcome by the dedication and hard work of those involved. That recovery was so intense, that all the lost time was regained. That was a tremendous accomplishment.

I had an opportunity to meet and speak with a number of the folks at the orientation breakfast prior to the refueling outage. I was impressed with their dedication and openness. Please let everyone know how much we appreciated their efforts. I look forward to working with all of them again during the upgrade of Unit 1 Moisture Separators in early 2006.

Sincerely,

A handwritten signature in black ink, appearing to read "Britt T. McKinney". The signature is fluid and cursive, with a large, sweeping flourish at the end.
