**\*\*\*Rigging Safety Alert\*\*\* Highlines are dangerous!! Even to a trained eye highlines can appear to be safe when they are not. Always double check your rigging!**

**\*\*\*Welding, Cutting and Burning Safety Alert\*\*\*** - Breathing welding fumes is hazardous to your health, especially hexavalent chromium (Cr(VI)) compounds which are present in stainless steels. These fumes are potential human carcinogens and exposure to these fumes should be minimized. Be sure to protect your health by properly ventilating your work area and breathing zone. The use of proper respirators will also minimize your risk. Take the time to work safely!

**\*\*\*Jobsite Injuries\*\*\*** Local #13 has seen an increase in jobsite injuries and accidents. Please take the time to work safe and don't take any safety issue for granted. Insist on making sure that your work area is safe. Good housekeeping is a good place to start. Also, follow all lock out and tag out procedures and read the work permits each time you enter a vessel or confined space. **Take the time to work safely!** If you do get hurt it is imperative that you **immediately** notify the jobsite superintendent and the steward of all injuries no matter how minor the injury. This important step helps protect your ability to a workmen's compensation claim. **Please notify the union hall immediately of any unpaid medical bills that you may receive due to a result of a workmen's compensation injury. DO NOT MAKE ANY DEALS WITH CONTRACTORS.** I would also like for all members to contact me (James W. Banford, Jr.) personally about all injuries, no matter how minor you may think they are. **Please work safely!**

**Fraternally yours, James W. Banford Jr., Business Manager/Secretary Treasurer**

**\*\*\*Notice from the Dispatcher\*\*\*** - Please keep calls to the union hall to a minimum after 2:00 p.m. We start dispatching work at 2:00 p.m. and it is unfair to members waiting to be called for work to be delayed by tied up phone lines. Also, many times we have to fill jobs for that same night and are delayed due to many incoming calls. If you need to call the hall for matters other than dispatch please call before 2:00 p.m. Also, **Remember to call in your layoff on the day you are laid off.** Although it is the duty of the job steward to call in layoffs, it is ultimately the member's responsibility to contact the union hall. The best way to inform the union hall of your layoff is to call the union hall after 4:30 p.m. and leave a message on the recorder that you were laid off. Leave the date you were laid off and the name of the job you were laid off from.

**\*\*\*Notices from the Training Coordinator\*\*\***

Please call the drug testing facility before going for your drug test to make sure that the facility is still on the list of M.O.S.T. approved collection sites. **Also, all Boilermakers must assume that they will be drug & alcohol tested when signing up on all jobs** and they must assume that there will be random drug & alcohol testing as well during such jobs.
