International Brotherhood of
 Boilermakers, Iron Ship Builders
 Blacksmiths, forgers and Helpers
 Lodge No. 13

To Whom It May Concern:

Sterling Boiler & Mechanical Inc. recently completed two (2) Flue Gas Desulfurization units for Siemens International at the PPL Brunner Island Project in York Haven, Pa. We would like to express my appreciation to Local 13 for the caliber of employees sent to help us complete this project.

Their dedication and devotion to safety as well as their willingness to join in our safety culture helped SBMI to achieve over 120,000 man-hours with no OSHA recordables and no Lost Time accidents. This was an *outstanding effort* by all parties and one greatly appreciated by SBMI.

The boilermakers worked long and sometimes difficult hours on many task to ensure the project was completed on time and with a high degree of Quality. Their devotion to duty and willingness to do whatever it took to get the job done is truly a positive reflection on them and the whole Local 13 Brotherhood. We would like to say "THANKS" for the leadership, quality and devotion for a job "WELL DONE".

Sincerely Yours;

Jack "Pete" Reeder
 Project Manager

Todd Barnett
 Project Superintendent
